### CONVERSION CHART

AUS/UK	US	EURO
6	2	34
8	4	36
10	6	38
12	8	40

### MEASUREMENT & FIT

#### WAIST

Your natural waistline is the narrowest area of the waist. To measure, relax your stomach and place the tape measure flat around your waist.

#### HIPS

To achieve the most accurate hip measurement, stand with your feet together and measure around the widest point of your hips. This is generally 1 or 2 inches below the hip bone.

#### HALF SIZES

If you measure a half size you should go with the smaller size.

#### AIRIDERS

The Airiders have the most stretch in our range. If you prefer a tighter fit, go one size down.
